

PVC SUPER FASTTAP® SADDLES

PVC SUPER FASTTAP®

Plastic Saddle Punch Tee For Use On All PVC and PE Mains

The FASTTAP® PVC Saddle Tee is the most reliable and easy to use method of adding service connections to a plastic main. A live main can be tapped under full pressure. Simply bolt on the FASTTAP® saddle, connect the service line and then tap the main with the built-in coupon retaining punch. The punch will serve as an emergency shut-off valve and may be left in the closed position until service is needed.

No Corporation Stops! No Tapping Machines! One Tap Does It All!

- Full wrap around saddle design eliminates stress points being applied to main.
- Tapping process uses simple combination tapping tool eliminating cumbersome tapping machines.
- Tapping cutter retains the coupon then functions as a cut-off valve eliminating corporation stops.
- Manufactured from noncorrosive materials.
